

5th IEEE CASS Rio Grande do Sul Workshop

Porto Alegre, Brasil

October 22-23, 2015

CALL FOR POSTERS

The IEEE Circuits and Systems Workshop will be held for the fifth time in Porto Alegre on October 22-23, Thursday and Friday. It is an event intended for academic and industrial exchange between local researchers and foreign researchers. The speakers are renowned researchers and from institutions with significant work in the field of microelectronics. The event will last for two days and the programming will consist of a series of invited tutorials and 2 poster sessions.

The Workshop Location is the Instituto de Informática of the Universidade Federal do Rio do Grande do Sul.

Some of the invited speakers are:

- Andrew Kahng - UCSD (USA)
- Gi-Joon Nam - IBM Yorktown (USA)
- François Rivet - IMS (France)
- Onur Mutlu - CMU (USA)
- Victor Grimblatt - Synopsys (Chile)
- Ricardo Jacobi - UNB (Brazil)
- Luis Alberto da Silva Cruz - Univ. of Coimbra (Portugal)
- Ivan Saraiva Silva - UFPI (Brazil)

More details at the event webpage.

OBS: Registration is free to IEEE CASS members.

Poster Session

This year, for the first time, the workshop includes 2 poster sessions. The program will cover topics on Circuits and Systems, including but not limited to Analog and Digital Circuits, Mixed-Mode Circuits, Biomedical Electronics, Communication/RF Circuits, Wireless Sensor Networks, Nanoelectronics, Electronic Design Automation, VLSI Systems and Applications, FPGA Design and Applications, Circuit Testing, Fault Tolerant Circuits.

The authors must submit an A4 pdf with a copy of the proposed poster. The proceedings will be published in pdf with the collection of accepted posters.

More information about poster guidelines are at the event website.
